<h1>Photography is a love affair with life. </h1>

<p><b>Photography is the art, application and practice of creating durable
images by recording light,

either electronically by means of an image sensor, or chemically by means
of a light-sensitive

material such as photographic film.It is employed in many fields of
science, manufacturing

and business, as well as its more direct uses for art, film and video
production,

recreational purposes, hobby, and mass communication</b> </p>
